INTRODUCTION

The Creating Homes Initiative (CHI) is a Tennessee Department of Mental Health and Developmental Disabilities strategic plan to partner with communities to create housing options for people with mental illness and co-occurring disorders in Tennessee. The initiative was created in 2000 by Marie Williams, LCSW, Executive Director of the Division of Recovery Services and Planning in the Tennessee Department of Mental Health and Developmental Disabilities with the following vision, mission and goal.

THE VISION

To create and expand affordable, safe, permanent and quality housing options in local communities for people with mental illness and co-occurring disorders in Tennessee.

THE MISSION

To partner with local communities, assertively and strategically, to educate, inform, and expand quality, safe, affordable and permanent housing options for people with mental illness and co-occurring disorders.

THE GOAL

Original goal: 2,005 by 2005. Goal surpassed in 2002.

Amended goal: 4,010 by 2005.

Amended goal reached in December 2004 with 4,081 total.

New goal: 8,002 by 2008

THE NEED

Daily across Tennessee, in cities and towns, we see the impact of insufficient housing and support services for persons diagnosed with mental illness and co-occurring disorders. Specifically, we watch as persons with mental illness and co-occurring disorders go through our systems of help—hospitals, mental health centers, homeless shelters, faith-based and social service agencies. Growing numbers of people enter this system daily looking for hope, help, healing, and home.

Unfortunately, all too often, there is no safe or affordable place to call home. We see this phenomenon in our jails, hospitals, and shelters, all of which report increases in persons who have a mental illness and co-occurring disorders cycling and re-cycling through their networks. We hear the frustration in the voices of consumers themselves as well as caseworkers, representatives from the behavioral health organization, and family members about the low availability and questionable conditions of the housing where those they care about reside.

The lack of safe, decent, permanent, and affordable housing options for persons with mental illness and co-occurring disorders is a crisis in Tennessee. TennCare data suggest that a total of **173,377** persons assessed with severe and persistent mental illness in the state have used some behavioral health service covered under the TennCare program. Of those **173,377** assessed, approximately **88,772** persons are considered active consumers and regularly interface with the community mental health service system. Also, it is estimated that approximately **2,000** persons live in **212 licensed supportive living facilities**. In addition, approximately **20%** of the

criminal justice system and **25%** of the homeless population are diagnosed with a mental illness, totaling **12,000**. Because the majority of persons in these categories exist on low incomes, it is safe to conclude that there are approximately **187,377** persons in need of some sort of housing assistance.

This statement is validated by the following:

People with mental illness receiving SSI benefits (\$623 average monthly income) are among the lowest income households in the country.

There is not a single housing market in the United States where a person with SSI benefits can afford to rent a modest efficiency apartment.

In Tennessee, the average cost of a one-bedroom apartment is 80% of the SSI monthly income.

Rents are rising at twice the rate of general inflation.

For every 100 households at or below 30% of median income, nationally, there were only 36 units both affordable and available for rent.

1 in 5 persons in our criminal justice system is diagnosed with a mental illness.

Affordability remains America's most widespread housing challenge.

The shortage of affordable housing directly affects the quality of life for the millions who eke out their housing payments every month, sacrifice the purchase of other essentials, commute long distances to work, and/or suffer overcrowded or unsafe conditions. Worse yet, some must live in shelters or on the street. These pressures not only undermine their physical and mental health, but also their ability to find suitable work, perform well in school, and advance economically.

Information obtained from Priced Out in 2000, The Crisis Continues; Criminal Justice Task Force Report; Tennessee Housing Development Agency SJR 279 Housing Report; the U.S. Surgeon General's Report; The Knoxville News – Sentinel; and the Joint Center for Housing Studies of Harvard University, 2003 The State of the Nation's Housing.

THE RESPONSE

The Tennessee Department of Mental Health and Developmental Disabilities (TDMHDD) has done much in response to this need, including the establishment of the Division of Recovery Services and Planning. The division, under the leadership of Marie Williams, is charged with developing and expanding the SETH Campaign: Support, Employment, Transportation, and Housing/Homeless Services. The goal is to improve the opportunity for Tennesseans diagnosed with mental

illness and co-occurring disorders to live, thrive, and contribute to their communities in the least-restrictive settings that are consistent with their needs and choices.

The Office of Housing and Homeless Services (OHHS) in the Division of Recovery Services and Planning (formerly the Office of Housing Planning and Development) has been asked to focus on homes; however, it has become quite clear that “home” cannot truly exist for many persons with mental illness and co-occurring disorders without an increase in adequate housing and enhancements of current community housing options, coupled with coordinated and effective community services support and delivery. The CHI addresses this need by creating permanent, safe, affordable, quality, housing options, through a targeted, grassroots, local community, multi-agency, collaborative called the Creating Homes Initiative (CHI).

THE VISION

To create and expand affordable, safe, permanent and quality housing options in local communities for people with mental illness and co-occurring disorders in Tennessee.

THE MISSION

To partner with local communities, assertively and strategically, to educate, inform, and expand quality, safe, affordable and permanent housing options for people with mental illness and co-occurring disorders.

THE GOAL

Original goal: 2,005 by 2005. Goal surpassed in 2002.

Amended goal: 4,010 by 2005.

Amended goal reached in December 2004 with 4,081 total.

New goal: 8,002 by 2008

THE HISTORY OF THE CHI

Announced at the TN/KY Housing Institute in 2000, the CHI was funded by the TDMHDD at \$2.5 million to begin Phase One. That initial push focused on developing housing options along a continuum from home ownership to 24 hour/7 day per week supportive housing, primarily in four cities determined to have the greatest need—Memphis, Jackson, Nashville,

and Chattanooga. By 2001, the initiative had secured \$2 million in funding from the Tennessee Housing Development Agency (THDA) and HUD Section 8 vouchers to be used as rental subsidies for persons with mental illness or co-occurring disorders. CHI had also requested for proposals to distribute grants from the initial seed money allocated to fund the CHI mission by the state. A statewide rate and rank process by impartial reviewers determined the grant award winners, and project development was underway.

In April 2001, Regional Housing Facilitators were hired to implement the CHI strategy in the target areas. The additional staff drastically increased the assistance CHI could offer to local community leaders and mental health service advocates. Grant writing was stepped up, and monies continued to be brought into the initiative to fund added housing development.

October 2001 brought two enhancements to the CHI. First, Phase Two of the initiative was implemented, which added Clarksville, Murfreesboro, Knoxville, and Johnson City as the next target cities. More Housing Facilitators were hired, with one facilitator in each of the seven mental health planning and policy regions—the initiative was truly a statewide effort.

The second enhancement was the expansion of the CHI to include a project called Housing Within Reach. Funded by a \$1.8 million Centers for Medicare and Medicaid Services Real Choice Systems Change grant, Housing Within Reach enabled the hiring of four Consumer Housing Specialists (CHS), who directed the project in the four Phase One cities. The CHSs established a sophisticated information access system as well as hosted three housing academies, completed a longitudinal evaluation study of the effects of permanent housing on the health and quality of life for consumers, and led a media campaign to fight stigma and “not in my back yard” (NIMBY) issues.

During 2002 and 2003, the CHI continued to gain momentum—new grants were funded, and many more housing units came on line. In 2004, the Department of Mental Health and Developmental Disabilities was reorganized. Marie Williams was named the Mental Health Executive Director of the Division of Recovery Services. This Division within the Department includes offices that correspond to the areas of the SETH Campaign—the Office of Support Services, the Office of Employment Planning and Development, Transportation Services and the Office of Housing and Homeless Services. Even with these changes, the work of the CHI has never skipped a beat. By the end of 2005, the CHI indeed surpassed the revised goal of 4,010 by 2005. The new goal for the initiative is 8,002 by 2008.

THE CHI STAFF

CHI staff members at the Department of Mental Health and Developmental Disabilities in Nashville include Marie Williams, Mental Health Executive Director of the Division of Recovery Services and Planning; Bob Currie, Director of the Office of Housing and Homeless Services; Natalie Jefferson, Administrative Assistant, and Lisa Ragan, Special Projects Coordinator. CHI staff members in the community include the Regional Housing Facilitators and the Consumer Housing Specialists, as indicated by the following map.

REGIONAL HOUSING FACILITATORS AND CONSUMER HOUSING SPECIALISTS

THE STRATEGY

The CHI strategy is surprisingly simple yet innovative in its approach. Rather than a top-down, state-led campaign, the initiative engages local partners in every aspect of developing affordable housing for persons with mental illness and co-occurring disorders in their communities. Each cooperating individual, agency and organization is asked to:

- aggressively seek out and collaborate with potential funding entities to leverage and funnel housing funds to local communities;
- identify and recommend financing strategies and grants that will provide support for the development of permanent housing options;
- collaborate with the local CHI task forces to increase the availability of and access to housing;

- coordinate with other public agencies and the private sector to stimulate the preservation, development, and enhancement of housing options;
- direct new resources and develop plans, as funds become available, to increase housing options.
- uphold the quality of the current housing utilized for those persons diagnosed with mental illness.

Task Forces

The key to this regional collaboration and participation in CHI is found in the work of the CHI Task Forces. The Regional Housing Facilitators are charged with establishing and facilitating new CHI task forces in local communities across the state to include representatives from the following key agencies:

TDMHDD

Federal Home Loan Bank of Cincinnati

Homebuilders' Associations

Local United Way

Community Mental Health Centers

Mental Health Social Service Agencies

Statewide and Local Chapters of the National Alliance for the Mentally Ill (NAMI)

Local Housing Authorities

Statewide and Regional Mental Health Planning and Policy Councils

Habitat for Humanity

United States Department of Housing and Urban Development (HUD)

Housing and Community Development Organizations

Association of Realtors

Office of Economic and Community Development

Inner City Development Corporations

Local Governments

Private and Corporate Philanthropic Foundations

Local Business Communities

Tennessee Housing Development Agency (THDA)

Tennessee Association of Mental Health Organizations (TAMHO)

Behavioral Health Organization

Faith-based Community

Tennessee Mental Health Consumer Association (TMHCA)

Local Banks

Landlords

Supportive Living and Group Home Operators

Housing Counselors

Federal Reserve Bank

Mental Health Associations

Architects and Builders

Other Interested Community Persons

These CHI Task Forces then:

- Establish a seven- to nine-person steering committee of local CHI participants who are not currently requesting funding for a housing project. This steering committee reviews, ranks, and recommends housing proposals to the TDMHDD Housing Council for funding.

- Conduct local permanent housing assessments outlining current housing options, gaps and quality indicators. (Utilize local Consolidated Plan, SJR 279 Study, Continuum of Care, and DMHDD Statewide Housing Survey.)
- Create and execute a local strategy to expand the menu of needed permanent housing and supportive services options (single room occupancy units, one bedroom apartments, congregate housing, homeownership, subsidized housing, permanent supportive housing, etc.) for persons with mental illness, based on the needs determined through the community housing assessment.
- Create a local strategy to maintain, enhance and upgrade current housing options for persons with mental illness based on information gathered.
- Develop and maintain a local housing resource mechanism based on local housing assessment information. (Vanderbilt University, DMHDD, and HUD web site).

THE OUTCOMES

When the Creating Homes Initiative was implemented in the fall of 2000, the original goal was to create 2,005 new housing options for persons with mental illness and co-occurring disorders by 2005. That original goal was achieved in the autumn of 2002. The next goal of 4,010 by 2005 was exceeded by 71 units before mid-December of 2005. To date, the initial investment of **\$2.5 MILLION** has been leveraged to **\$198,151,146** (FY2000 through FY2008) new federal, other state, and local funds. These dollars have resulted in the development of **7,018** permanent, safe, affordable, quality housing units for **7,018** persons with mental illness and co-occurring disorders along the continuum illustrated below.

RESULTS ACROSS THE CONTINUUM

Other successes along the way:

- More than **1,155** individuals from local, regional, and statewide organizations have participated in making the CHI a success.
- **95%** statewide decrease in re-hospitalization for persons in CHI housing.

We can change the current housing situation for people with mental illness and co-occurring disorders in Tennessee through intention, strategy, collaboration and community!

APPENDIX A

CHI TASK FORCE PROTOCOL

STEP 1

- Establish task forces
- Create housing proposals to meet the needs

STEP 2

- Submit proposals to local steering committee
- Steering committee to review, rank, and recommend the housing proposals to TDMHDD Housing Council

STEP 3

- TDMHDD Housing Council to review recommendations and make funding decisions
- TDMHDD staff to complete funding and contracting obligations with local housing project sponsors

PERMANENT HOUSING FUNDING SCENARIOS FOR PERSONS WITH MENTAL ILLNESS AND CO-OCCURRING DISORDERS

Hypothetical Scenario 1:

Community A conducts their first Creating Homes Initiative meeting and determines that 24-Hour, On-Site Staff, Permanent Supportive Housing is the highest priority for their community. After which, Agency B decides to research community housing resources and finds a house. The cost of this house is \$250,000. This house can potentially be rehabbed to meet local zoning codes and state regulations for \$100,000 to provide quality, affordable, safe, and permanent housing for 8 individuals with mental illness. The agency projects that the annual operation costs (utilities, taxes, insurance, food, maintenance, etc) will be \$50,000. In addition, they state that the support services (on-site and management staff) cost will be \$150,000 annually.

The following represents different potential funding arrangements for the above housing:

* One Time Costs	** Annual Costs-----		
	1	2	3
Housing Acquisition*	THDA	FHLBank	HUD COC
\$250,000	\$250,000	\$200,000	\$225,000
		TDMHDD	HOME
		\$50,000	\$25,000
Housing Rehab*	CDBG	FHLBank	HUD COC
\$100,000	\$100,000	\$100,000	\$75,000
			HOME
			\$25,000
Operation**	Section 8/Tenant	Foundation	TDMHDD
\$50,000	\$28,000/\$22,000	\$50,000	\$50,000
Support Services**	TDMHDD	AFL/CIO	Foundation
\$150,000	\$150,000	\$150,000	\$150,000
Total Package:	\$550,000	\$550,000	\$550,000
Dollars Leveraged:	\$400,000	\$500,000	\$500,000
TDMHDD Contributed:	\$150,000	\$50,000	\$50,000

Hypothetical Scenario 2:

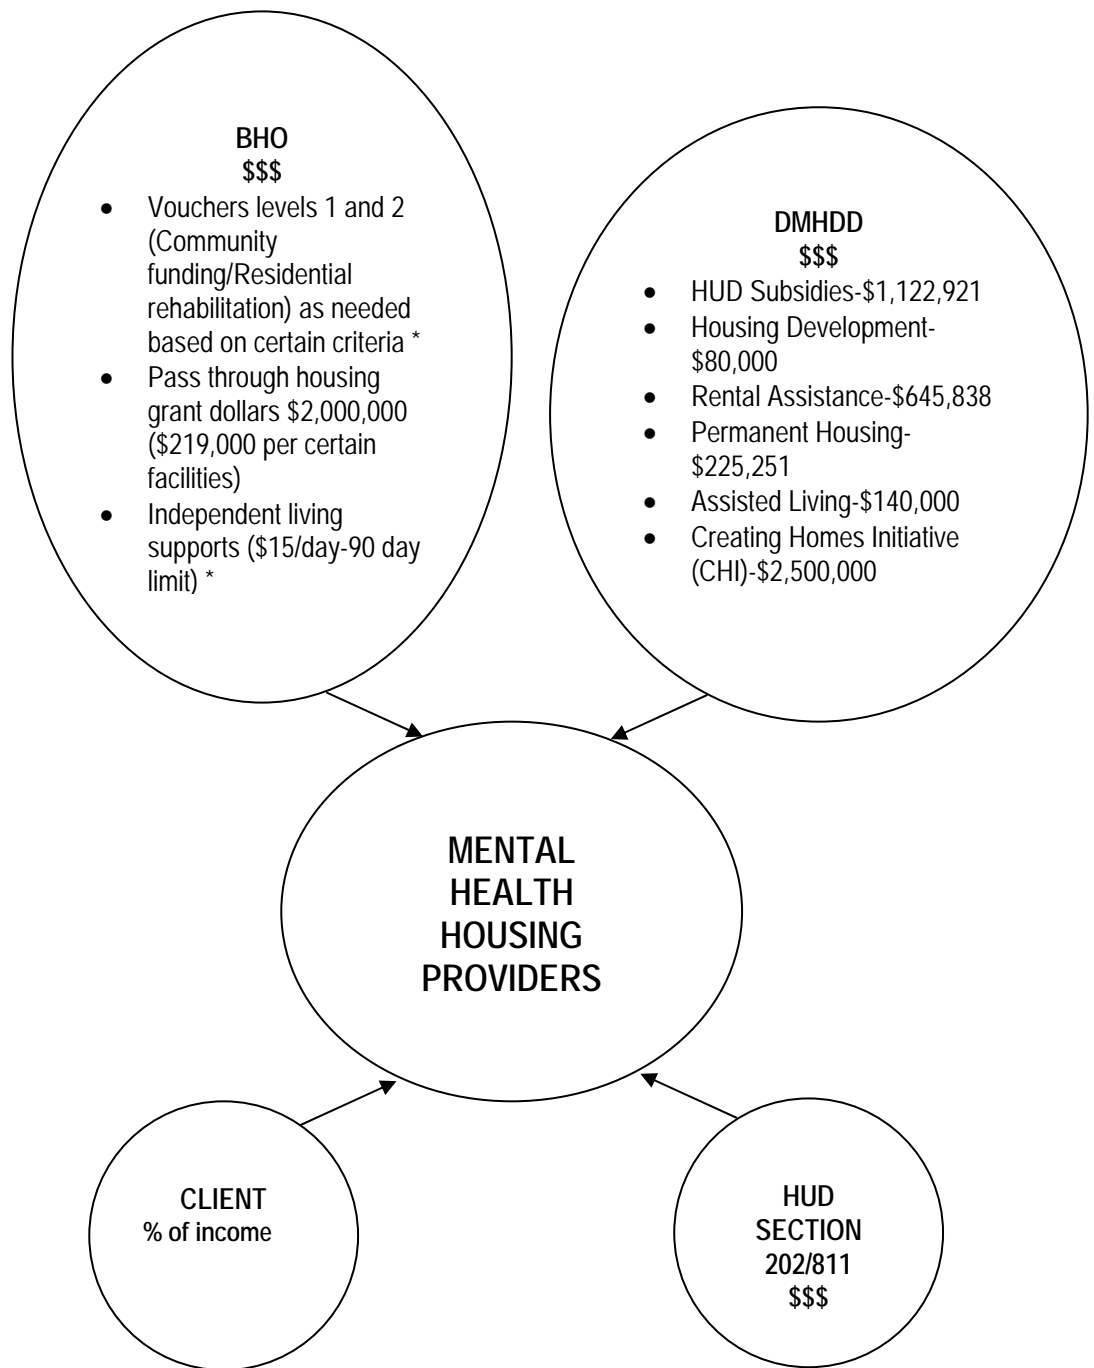

Community B determines that independent no staff on-site, permanent housing is their priority. Agency C finds an apartment complex which can be bought for \$500,000. It is determined that the rehab cost will be \$200,000. This apartment complex will be able to provide up to 20 one-bedroom units of housing for persons with mental illness. In addition, they project that the operation cost (part-time housing manager) will be \$20,000.

The following represents different potential funding arrangements for the above housing:

* One Time Costs	** Annual Costs-----		
	1	2	3
Apartment Acquisition*	THDA	FHLBank	HOME
\$500,000	\$250,000	\$400,000	\$500,000
	City	TDMHDD	
	\$250,000	\$100,000	
Apartment Rehab*	City	FHLBank	CDBG
\$200,000	\$100,000	\$150,000	\$200,000
	Foundation	TDMHDD	
	\$100,000	\$50,000	
Operation**	TDMHDD	Section 8	Tenant
\$20,000	\$20,000	\$20,000	\$20,000
Total Package:	\$720,000	\$720,000	\$720,000
Dollars Leveraged:	\$700,000	\$570,000	\$ 0

The above scenarios demonstrate a multi-leveraging process aimed at allowing TDMHDD dollars to be used more efficiently and effectively. By leveraging TDMHDD dollars with other federal, state, and local sources we will be able to provide up to 3 *TIMES* as many housing units as compared to one funding stream practices.

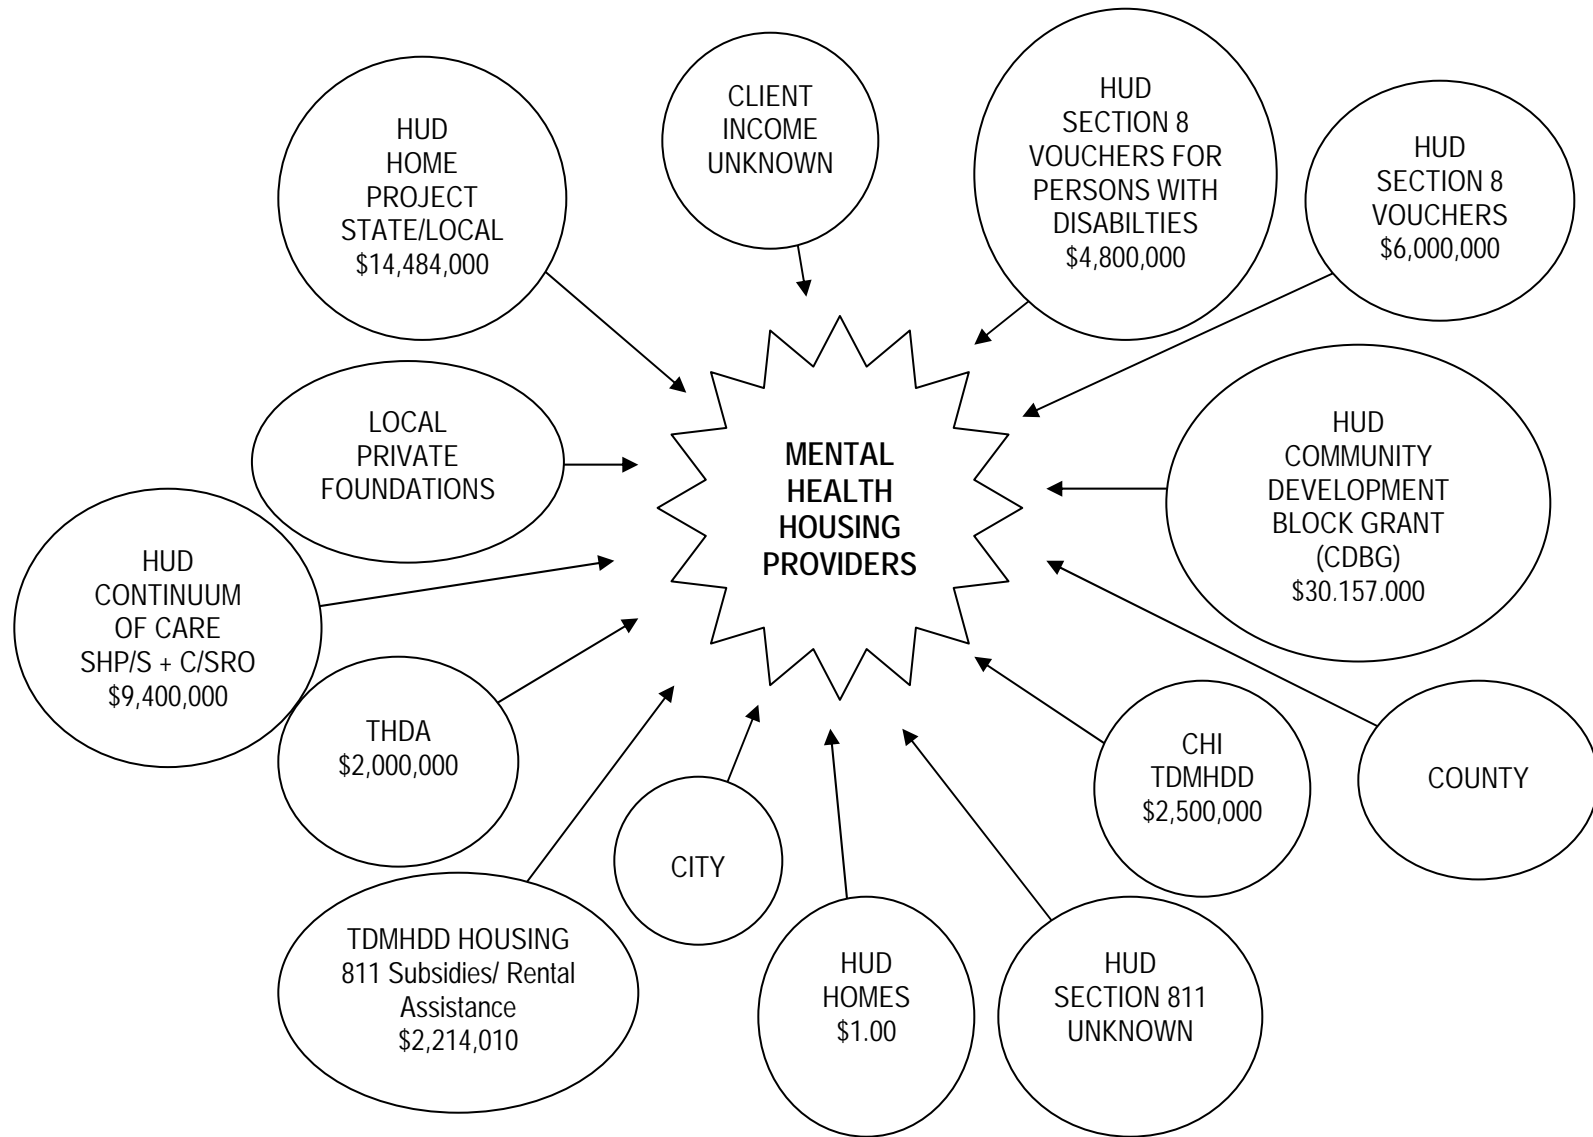

CURRENT UTILIZED FUNDING SOURCES FOR HOUSING

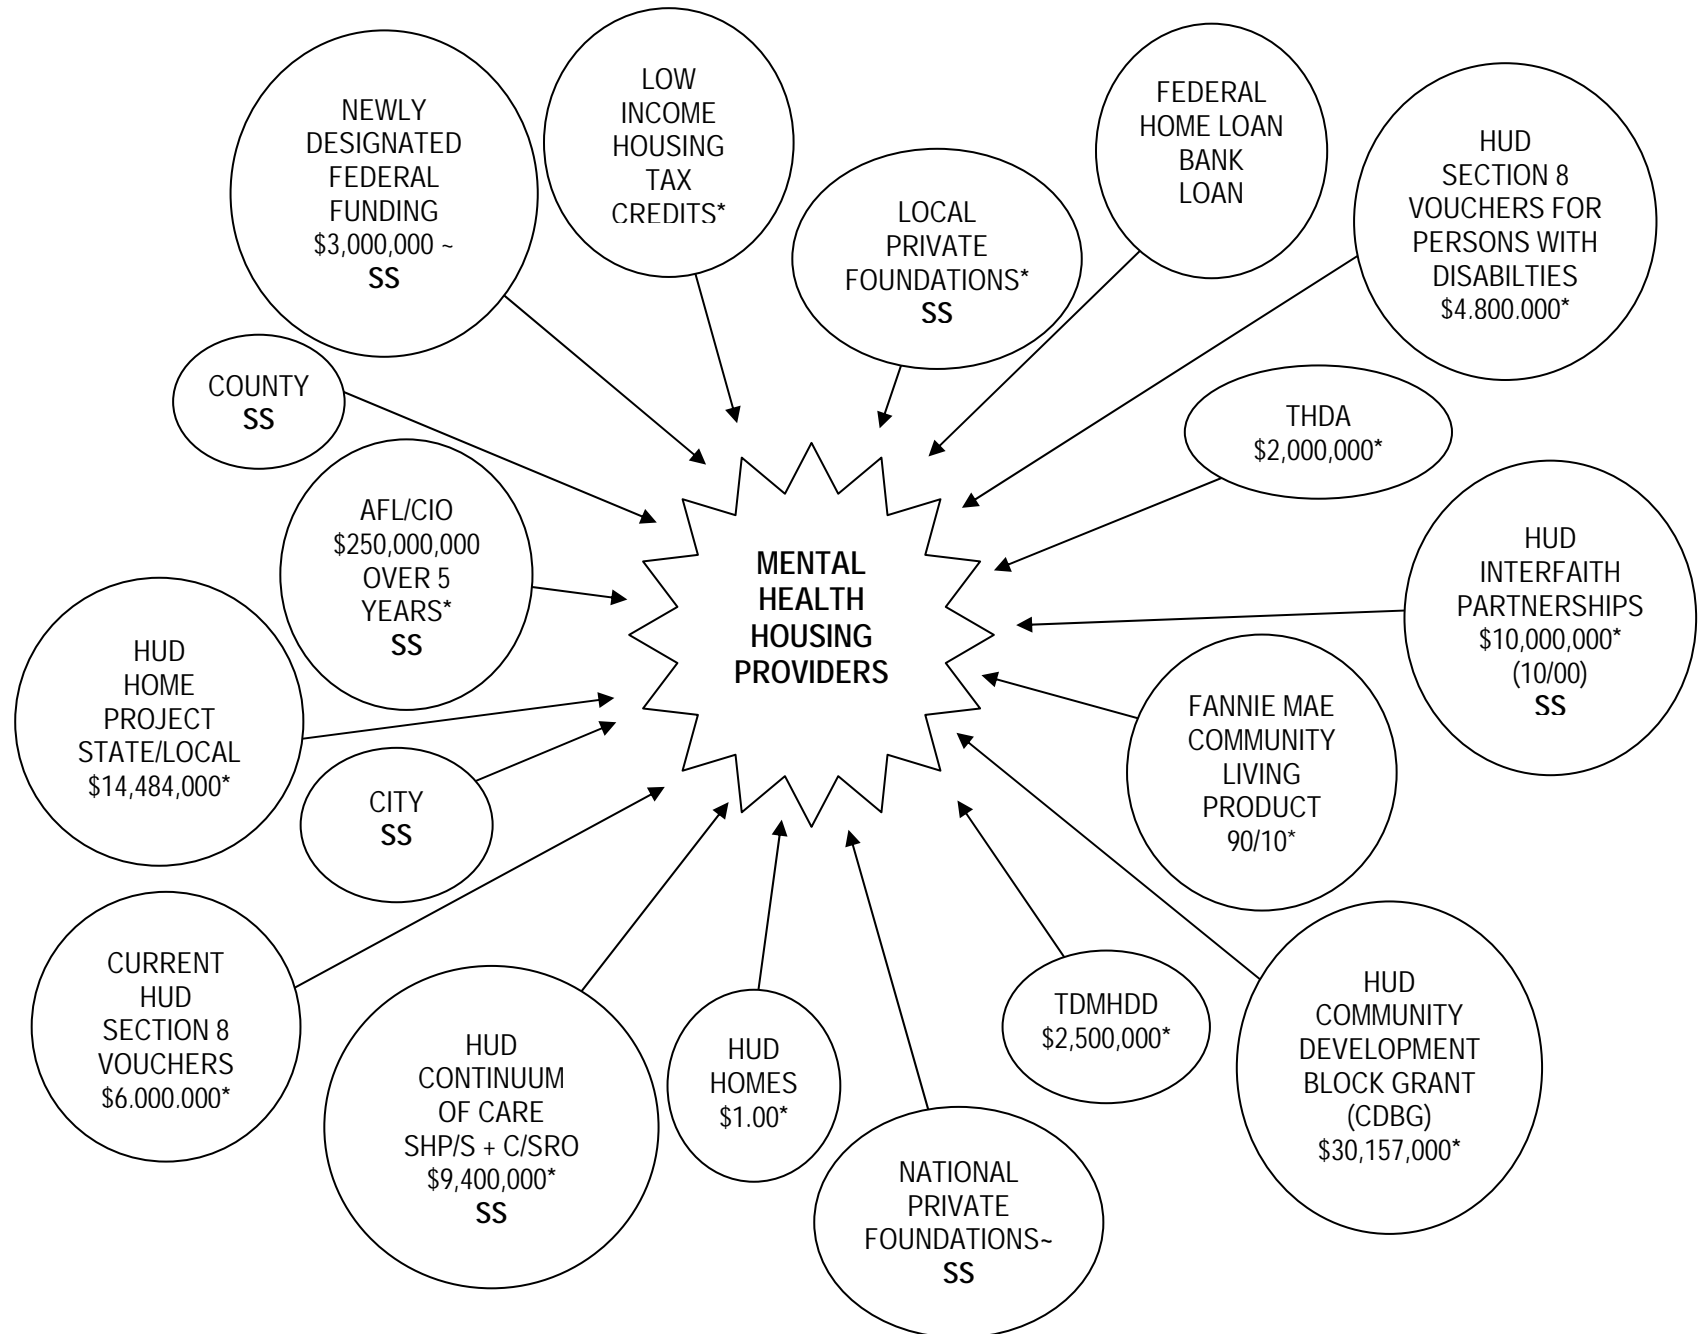

* Voucher Dollars based on medical necessity. Criteria include 30 consecutive days of in-patient hospitalization prior to discharge or 60 in-patient, non-consecutive days over the last year.
 Level 1—\$90.00 per day/24-hour awake staff; 90 day concurrent review
 Level 2—\$50.00 per day/staff as needed; 90 day concurrent review

APPENDIX N

PERMANENT HOUSING EXPANSION POSSIBILITIES

- Expand funds available
- Educate or consult with resource agencies to access current funds available
- Income increase strategies for persons with mental illness
- Category change of current programs/buildings to permanent housing
- Increase and designate current housing stock as permanent housing for person with mental illness
- Utilize non-traditional buildings (churches, downtown hotels, etc.) as permanent housing options for persons with mental illness

APPENDIX O
PERMANENT HOUSING NEEDS MATRIX FOR PERSONS WITH
MENTAL ILLNESS AND CO-OCCURRING DISORDERS
(COMMUNITY-_____)

	24-Hour On-Site Staff	On-Site Staff As Needed	No Staff On Site	Rental Housing	Home Ownership
*Current number of persons in need of this type of housing					
**Current units available of this type of housing					
***Current Gap					

*Numbers are derived from shelters, jails, hospitals, institutes and community mental health agencies count.

**Available units calculated by local housing assessment count.

***Numbers based on number of persons minus units.

APPENDIX P

ACTION STEPS TO TAKE TO CREATE MORE PERMANENT HOUSING FOR PERSONS WITH MENTAL ILLNESS AND CO-OCCURRING DISORDERS IN YOUR COMMUNITY

Contact your local Housing Authority Executive Director to:

Determine the local protocol and process to sign people up for regular Section 8 vouchers.

Explore whether or not they have applied for Section 8 vouchers for persons with mental illness (see attached housing funding matrix). If they have not, offer to work with them on this and encourage them to do so.

Discuss other housing options that they might have available for persons with mental illness.

Call the Federal Home Loan Bank office (see attached housing funding matrix) and talk with them about their current AHP Product and other housing grants and let them know about current housing needs and projects.

Call the Housing and Urban Development Office in Knoxville (see attached housing funding matrix) and find out who your local Continuum of Care point person is for your area. Call them and set up an appointment to talk about your housing needs and offer to participate in the Continuum of Care process. Once involved, explore submitting a permanent housing proposal under one of the Continuum of Care programs.

Call the Tennessee Housing Development Agency (see attached housing funding matrix) and talk with them about your local housing needs and explore housing funds available.

Call your local HUD office and talk with them about the HUD Homes (\$1.00), Section 202/811, and Multi Family programs. Find out what they have available and apply for whichever Program fits your need.

Call your local Housing and Community Development agency (see attached housing funding matrix and call HUD Knoxville office for your local contact) and talk with them about the Community Development Block Grant program, HOME funds, and City/County dollars. Find out the process to apply for these funds and let them know about your programs.

Participate in the Creating Homes Initiative Task Force and apply for designated TDMHDD funds.

Contact your local Private Foundation Executive Director and let them know about the housing situation. Find out the process by which they award funds and see if your housing project would meet the funding criteria.

APPENDIX Q

A FEW FACTS ABOUT MENTAL ILLNESS

Mental illnesses are physical brain disorders that profoundly disrupt a person's ability to think, feel and relate to others and their environment.

Mental illnesses are more common than cancer, diabetes, or heart disease.

In any given year, more than five million Americans suffer from an acute episode of mental illness.

One in every five families is affected in their lifetime by a severe mental illness, such as bipolar disorder, schizophrenia and major depression.

A conservative estimate is that 12 percent (7.5 million) of the country's 63 million youths under age 18 have mental, behavioral or developmental disorders. Yet, only one fifth of these children and adolescents who need mental health treatment receive it.

The treatment success rate for schizophrenia is 60 percent, 65 percent for major depression, and 80 percent for bipolar disorder. Comparatively, the success rate for treatments of heart disease ranges from 41-52 percent.

The number one reason for hospital admissions nationwide is a biological psychiatric condition. At any moment, almost 21 percent of all hospital beds are filled by people with mental illness.

The total price tag of mental illnesses in this country is \$81 billion, including direct costs (hospitalization, medications) and indirect costs (lost wages, family caregiving, losses due to suicide).

Despite media focus on the exceptions, individuals receiving treatment for schizophrenia are no more prone to violence than the general public. Unfortunately, almost one-third of all U.S. jails incarcerate people with severe mental illnesses who have no charges against them, but are merely waiting for psychiatric evaluation or the availability of a psychiatric hospital bed. Today, roughly 159,000 people with severe mental illnesses are incarcerated in jails and prisons, mostly for crimes they committed because they were not being treated for their illness.

On any given day, approximately 150,000 people with severe mental illness are homeless, living on the streets or in public shelters.

Roughly 80-90 percent of people with serious brain disorders are unemployed.

APPENDIX V

REAL CHOICE SYSTEMS CHANGE HOUSING WITHIN REACH CONSUMER HOUSING SPECIALISTS

In September 2001, the Tennessee Department of Mental Health and Developmental Disabilities (TDMHDD) was awarded a three-year Real Choice Systems Change grant, entitled *Housing within Reach*, in the amount of \$1.8 million through the Centers for Medicare and Medicaid Services (CMS), formerly the Health Care Financing Administration (HCFA). The success of the CHI served as the springboard for the development of the grant. The purpose of the grant was to design and implement an effective, consumer-directed, accessible housing resource system for persons diagnosed with mental illness and co-occurring disorders. Components of this resource system included evaluation and education and a campaign to reduce the stigma of mental illness and co-occurring disorders in Tennessee.

The Consumer Housing Specialists work with consumers and community groups and are trained extensively on housing program and supports services delivery, development, and access. Consumer involvement from inception to application of this project is an important step to ensuring that consumer interests and desires remain in the forefront of housing development. Both CHI task force group members, as well as community consumer group representatives, have brought this aspect of the project to the forefront. An additional project goal is to expand consumer involvement through the outreach efforts of the Consumer Housing Specialists. Real life experience has shown that consumers listen to consumers, especially to those consumers who have information valuable for the consumers' abilities to live in the least restrictive community environment. This project component has had a huge impact and return in our communities. [The Consumer Housing Specialist's job is about working with a system change in how people will access information regarding housing.]

CHI SUCCESS STORIES

BOB

by Rozann Downing, Regional Housing Facilitator, Region VI

Bob, 44, moved into the CHI/Behavioral Health Initiatives, Inc. (BHI) Puryear permanent housing residence in August of 2001. Diagnosed with Paranoid Schizophrenia, Bob had been a frequent patient at Western Mental Health Institute (WMHI) before moving into the Puryear Group Home. In 1998, Bob was hospitalized seven times. The shortest of these stays was three weeks, and the longest was three and a half months.

When I spoke with Bob and his case manager about his inpatient stays prior to moving into the Puryear Group Home, I learned that Bob had never been able to stay on his medication consistently. Bob stated, "I would take it for a few weeks, and when things got to going well, I didn't think I needed it." So, he would stop taking it. His case manager added that the usual scenario would be that Bob would become unstable and would go out into the community and begin panhandling. He would approach people and tell them that he needed money for bizarre things such as a "brain transplant." Eventually, the police would be called, and Bob would find himself on his way to WMHI. This situation would occur about every two to three months (at the longest). Bob said it was "a never ending cycle." Bob was hospitalized three times from 1999-2001, for a couple of weeks each time.

Bob was one of the first residents of the CHI/BHI Puryear Group Home. Bob has been with BHI for over a year, and we are proud to say that, since moving into our home, he has not been hospitalized, and he has not received any type of crisis services. In addition, Bob no longer feels the need to panhandle. One of his goals is learning to manage his money and save for those "high dollar items". He is making tremendous progress. Another goal that Bob is working on is building a relationship with his siblings. Bob reports that his family had trouble dealing with him because of his inability to take his medications and "act right." I am happy to report that last month Bob's sister came up from Georgia to visit with him.

When asked what he likes best about living in a home in the community, Bob smiles and replies "everything." I believe that says it all.

JOE

by Rozann Downing, Regional Housing Facilitator, Region VI

Joe, 34, resides at the CHI/BHI permanent housing residence in Henry County. Joe has been diagnosed with psychotic disorder NOS, impulse control disorder and moderate mental retardation.

Prior to moving in the group home, Joe lived most of his life with his mother and father in a mobile home in a rural Tennessee County. The living conditions were extremely poor. The family disposed of waste by tossing it out the back door, resulting in an abundance of mice, rats, and other pests. The family also kept hunting dogs in the house. Sadly to say, the hunting dogs were not house-trained. The smell was unbearable.

Joe, himself, was filthy and lacked the skills needed to properly care for himself. He reported that at night, he would sleep with the “coon dogs,” and they would help him keep warm.

Joe moved into his CHI/BHI home in August of 2001. When he first arrived, he was quiet and would rarely make eye contact with anyone. Over a year has gone by, and Joe is not the same person that he was when he moved in. Joe’s medical health has increased to the point where he just needs routine medical check-ups. His personal hygiene and self-care skills have drastically increased. He even reports, “I look good enough to get a girlfriend.” His self-esteem has skyrocketed. The man who once could not look you in the eye will now go up to strangers and start conversations.

Joe’s biggest achievement, to date, has been his progress toward managing his finances. When he lived with his parents, he never received any of his disability checks. He was always told that the money was being spent to pay off his bills, even though he did not have any bills. Now, Joe is very efficient with his finances. He has been able to save enough money to start a small lawn mowing business. Joe has purchased a riding mower, weed-eater, leaf blower, and a small storage shed to house his tools.

Joe earns approximately \$350 a month mowing lawns. BHI hired Joe this summer to care for the lawns at both properties in Puryear, and we could not be any happier with his performance.

Joe has tapped into a lot of potential that he never knew existed. The abilities were always there; he just never had the encouragement he needed. The staff at the Puryear Group Home supplied the encouragement needed for Joe’s talents and abilities to shine.

MS. H

by Cheré Bradshaw, Regional Housing Facilitator, Region VII

The mother of two small children, Ms. H is a 27-year-old female who has a diagnosis of depression and alcoholism. She moved 12 times in one year before coming to HELPING, CDC housing in October of 2001. As a result of the housing and support services she received, she was able to finish her nursing degree at University of Tennessee in May of 2002.

Ms. H moved into the community in March 2002 and into her own permanent housing. In April of 2002, she married a local business executive. She continues to follow-up with community-based services and currently serves on the Board of HELPING, CDC.

JD

by Cheré Bradshaw, Regional Housing Facilitator, Region VII

JD has been living at Mid-South HealthNet since June 28, 2001. Her diagnosis is schizophrenia (disorganized type). Her family was homeless and had a history of mental illness, and they were unable to care for her. Fifteen to twenty years ago, JD was living in shelters and on the streets when she was brutally gang raped and doused with battery acid. As a result of the battery acid, she has skin deformities and is legally blind. She has had

numerous hospitalizations. After each hospitalization, she would be discharged back to the streets or shelters, where she would begin to decompensate and have to be re-hospitalized.

Upon admission to the Higbee House, JD would not interact with the other members of the house. She stayed in bed with the covers over her head. After a period of time, she began to interact with the group. Currently, she is medically stable, has gained 30 pounds and is doing great. She participates in the in-house and community activities. JD states, "I have a great life and a great future!"

Since her admission to Mid-South HealthNet's Higbee House on June 28, 2001, JD has not been re-hospitalized.

LINDA

by Mary Gormley, former Regional Housing Facilitator, Region IV

Linda is a registered nurse with a history of suicidal depression. She is also recovering from alcohol and drug addiction. Linda entered the Foundations Associates program 10 months ago and has worked through the step-up levels and is now living in one of the CHI funded duplexes in East Nashville.

Linda continues in the after care program at Foundations Associates and goes to recovery group meetings. Her depression and addiction history caused her to lose her job as a registered nurse. Currently, Linda is focused on her continued healing and recovery and is not sure that she will go back to nursing.

Linda describes her current living situation as a miracle that has been extremely helpful in her healing. "This home has given me a start over in life," she said. "I am beginning to set goals for my future, and even thinking about going back to school. This environment with the two duplexes has created a community where we all help each other out; it is a wonderful place to live. I would never have been able to create this on my own."

CREATING HOMES INITIATIVE HOUSING IMPACT REGIONAL POINT-IN-TIME COUNT

October 2003

This information was obtained from a random survey of approximately 15 individuals from each of the seven statewide Mental Health Planning Council Regions, totaling 105 persons diagnosed with severe and persistent mental illness or co-occurring disorders.

Region	# of Hospitalizations Approximately 2 Yrs Prior to Move-in Date	# of Hospitalizations Approximately 2 Yrs After Move-in Date	Percentage Decrease in Hospitalizations Due to CHI Housing
I	25	4	84%
II	26	0	100%
III	36	2	94%
IV	21	0	100%
V	11	0	100%
VI	26	1	96%
VII	33	3	90%
TOTAL	178	10	95%
